✓ **Intro**

✓ **How to connect your AvaTrade account with DupliTrade**

✓ **How to setup your trading account to copy with DupliTrade**

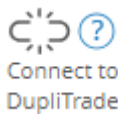

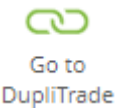

Intro

- ✓ DupliTrade's unique integration allows you to copy selected asset managers via the AvaTrade client portal
- ✓ With DupliTrade, trades are generated directly to your own MT4/5 account at the copy ratio you select
- ✓ Trading activity will be visible at the DupliTrade client portal or on your own MT4/5
- ✓ You have the option to get Realtime trade alerts via email
- ✓ A weekly performance email will be sent to help you track of your performance

How to connect your account - Step 1 At the AvaTrade client area:

- Use this link to open an account with AvaTrade: <https://tracking.avapartner.com/SwwAAAlf> and follow the required steps until your account is fully setup and funded.
- Once logged into the AvaTrade client portal go to the “My Account” section 
- Click on the DupliTrade Button  
- DupliTrade will then open on a new tab on your web browser
- **Important Remark:** The above steps need to be done on a regular PC (not via a mobile device)

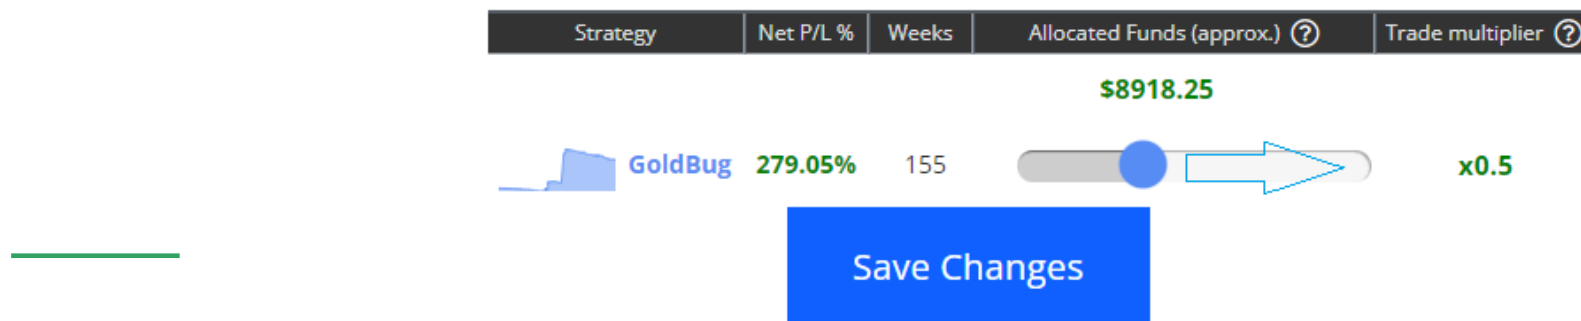

How to connect your account - Step 2 At the DupliTrade site

You are now signed up to DupliTrade and just a few steps from completing the connection

- Click on “Upgrade to Real” to complete the connection steps, including a brief suitability quiz and an online POA form
- Once all steps have been completed our team will review and process the account for connection. Notice that the processing usually takes approx. an 1-2 hours during working hours
- As soon as the process is concluded you will receive an email to get back to DupliTrade and activate your account for trading.

Upgrade to Real

How to connect your account - Step 3 Activate your account

You will reach the Duplication settings page by clicking on the setup button

[Setup your Real account duplication settings](#)

When activating the Duplication settings:

- You will be able to select the trade multiplier which best suits your risk appetite
- The multiplier determines the trade size copied to your account compared to the trade size of the selected strategy.
- Multipliers will be available in accordance with the actual funds level in your account

Simply move the slider to the right and Save Changes (see above image)

Once settings are saved all future trades will be automatically copied to your own account

The trading activity can be viewed at the DupliTrade Real account page as well as on your MT5 platform

Need assistance? Contact us!

- ✓ The DupliTrade chat button is visible on all site pages
- ✓ Type in any issue and we will be happy to hop in and assist
- ✓ Support is available 24/5 in multiple languages
